

Aditya Soni

Full Stack Software Developer

Indore, Madhya Pradesh, India | adityasoni95847124@gmail.com | +91 95847 12453 | github.com/Aditya-developer

SUMMARY

Full-stack developer with 1.5+ years of experience building web and mobile products end-to-end from React and Next.js interfaces to Node.js APIs and MongoDB-backed systems. Comfortable owning a feature from database schema to UI, with hands-on experience in Meta WhatsApp/Instagram API automation and integrating AI features (LangChain, LangGraph, RAG) into product workflows.

EXPERIENCE

Full Stack Developer — Foxaisr Aug 2025 — Present

- Shipping full-stack features end-to-end, from frontend interfaces to backend APIs and database design, on production company projects.
- Working across React, Next.js, Node.js, Express and MongoDB as the core stack.
- Contributed to learning management systems, event management platforms, and Meta WhatsApp/Instagram API automation workflows.

Full Stack Developer (Trainee) — Foxaisr Jan 2025 — Aug 2025

- Learned frontend and backend development hands-on React, Next.js and Angular on the front end, Node.js, Express and MongoDB on the back end.
- Built foundational full-stack skills by working directly on live company projects rather than isolated exercises.

PROJECTS

Collex AI 2026

AI-powered lead conversion platform built for the "CALL-E: Your Code Is Calling" hackathon

- Built an end-to-end flow where a new lead is engaged via chatbot, then followed up automatically with a personalized AI voice call.
- Used retrieval (RAG) to personalize each call script with lead-specific context instead of a generic pitch.
- Automatically classified leads as hot, warm, or lost based on the structured outcome of each call, driving next-step actions.
- Built with Next.js, MongoDB Atlas Vector Search, LangChain and LangGraph.
